

ABEM

LIVE / DJ SET

With a fierce and unique signature sound, ABEM has swiftly risen to prominence as a key figure in the hybrid movement that has emerged in the electronic landscape over the past few years.

His sonic explorations, both ultra-dynamic and deeply introspective, unfold with a precision that reflects a profound mastery of sound design. A relentless producer, the French artist regularly crafts boundary-pushing tracks for some of the most visionary labels in the scene, while delivering shamanic live rituals and DJ sets across the globe. His releases span imprints like Union Trance Mission — of which he is a resident — Underzone, Parallel, and Maison Close, where he has signed a widely praised and regularly played EP.

ABEM's approach is rooted in non-conformity, an unwavering commitment to bending and reshaping the very fabric of trance and free tekno across their many textures: from the deep currents of psytrance to the weirdness of solar emo, the primitive roots of mental tribe, and the grinding sounds of acidcore.

A true alchemist of hybrid forms, he is known for his electrifying closing sets that never fail to leave the audience suspended in a state of hypnotic ecstasy.
