

ABEM

Rising star of the French scene, ABEM is now a staple of the new international fast and hybrid scene. UTM resident and outstanding producer, this genius continues to release on the most advanced labels in the field, from Union Trance Mission to Crude, through Ismus, Unde-rzone and more recently Maison Close, on which he has just signed a particularly noticed EP.

Master of the hybrid, ABEM deploys his universe with a crazy energy, exploring with disconcerting ease the sounds of trance and all its colors, from psy-trance to solar emo through tek, tribe and fast-techno. He will lock you in his hypnotic canvas for an electric closing set of which only he has the secret.
