

WEIRD PLANET

ABEM

LIVE

With a strong taste for hybrid forms, ABEM sets out to reshape the conventions of mental tribe, acidcore and tekno. His explorations are as dynamic as they are introspective, with a keen ear for grit and texture that reveals a passion for sound design down to the finest detail.

Dark fantasy, music from around the world and cinematic soundscapes feed his imagination. Dissonant melodies, psytrance influences and abrasive sounds create atmospheres where the uncanny meets the sensitive, moving freely beyond the conventions of his chosen genres.

This narrative thread carries through to his live performances, where each composition becomes part of a larger story.
