

ANTIDOT & DICA

*Since the project started in 2022, Antidot & DICA have quickly carved out their reputation in the trance scene through 100% hardware live acts blending old school goa and full-power acid trance.*

*Born from the fusion between two friends, DICA, renowned artist from the acid and rave scene, and Antidot, resident of the northern french festival Dox'Art, the duo can count on a deep complicity and a solid experience of the dancefloor.*

*In a very short time, they get noticed for their undeniable taste for analog sounds and bring a breath of fresh air to the Goa scene through a modern approach to this music. A powerful and heavy touch added to the retroesque goa melodies, which allows them to find their place at some of the most renowned events of the genre : Dox'Art, Hadra or event Apsara, where their contagious energy manages to bring together purists and new generations of acid headz.*

*With tracks released on Suntrip Records and many more to come, keep an eye on these two as you will hear much more of their psychedelic dancefloor-breakers in the near future!*
