

DEE LALI

Dee Lali is the alias of a musical project born from a desire to explore deeper, more organic territories. As one half of the DJ and production duo Valise, she takes a more introspective and hypnotic approach here, shaped by tribal percussion and psychedelic textures.

Blending organic sounds, prog trance, techno, psy and downtempo, Dee Lali builds her sets like modern rituals, both primal and futuristic. Tempos flow and shift freely, moving from slow, immersive passages to faster, more intense rhythms, eventually venturing into hybrid territories where genre boundaries begin to dissolve.

Each set follows its own thread, weaving together contrasts, detours and shifts in atmosphere.
