

DICA

LIVE

There are many things that cannot be taken away from our Breton friends, and their love for free and unconditional partying is definitely one of them. This love, few people transmit it just as well as DICA behind his machines.

For over a decade, the Rennes-based artist has been shaping a powerful sound at the crossroads of Acid, Trance, Hardtechno and Hardhouse. Influenced by the UK acid legacy, he built his project around an analog setup where the TB-303 and hardware machines drive a distinctive, high-energy identity.

At the core lies performance. DICA's liveset is a fully immersive, high-intensity experience : blending hypnotic acid lines, trance-driven tension and hard, punchy rhythms. Euphoric yet relentless, powerful without relying on trends, his sound is designed for impact.

With releases on UTM, Kurai Records, Driller and Stay Up Forever, and performances across Europe, Asia, Australia and the Americas, DICA continues to bring his uncompromising live energy to an international audience... The circle is complete.
