

DJ REIZ

Coming from the Paris underground scene, it's been more than 5 years that DJ Reiz is spoiling our ears and hearts with beautiful Techno Trance bangers, reinventing old school 90s sounds and combining them with new groovy and thundering elements.

Owner of the young and fresh label Union Trance Mission, he defends a unique vision of rave music, a hybrid - fast - sometimes melodic, but especially effective style. Real playground for several rising heads of the European rave scene, counting dozen releases, it is through this label that he fosters creativity and carries loud and clear the banner of the "Techno-Trance".

Sailing between oldschool bangers, frenetic grooves and melancholic synths, DJ Reiz generously deploys a whole range of emotions in all his sets, exporting his vibrations from the french capital to Berlin or Copenhagen.
