

KLÅRA

DJ SET

It's said that Brittany is home to a quietly thriving scene of singular artists. Klåra is one of its most radiant figures: curious and luminous, she navigates the outer realms of trance, mental techno, and progressive house with an almost documentary sense of care, exploring these boundless sonic territories.

As the founder of the Trance Take Care podcast series, she advocates for a sensitive, contemplative approach, where ritual energy never clashes with a certain softness, almost meditative in tone.

Through her sets, Klåra shapes hypnotic soundscapes: deep basslines, spiraling melodies, and recurring motifs that invite inward exploration. You don't just listen: you let yourself be carried away.
