

# RADZE

## LIVE / DJ SET

Born in Georgia - raised and based in Belgium, Radze is part of these distorted sound disciples who inevitably bear the print of the dutch & belgian scene. A legacy of dirty 303 basslines, hard-hitting drums and epic synths, which he brilliantly combines with the overwhelming groove of tekno.

Whether as a producer, live performer or DJ, it is through a minimalistic use of that specific blend that his style finds all his singularity. Drawing the best pieces from acidcore, tribe or hardcore, each thundering element joins forces and finds its place in an unstoppable timeline where efficiency rhymes with unpredictability.

Over the past years, his analogical frequencies have been released on renowned labels of the genre such as Hashtek23, Mysteries or CTK, and brought him to play in some of the biggest and most popular acid parties over Belgium. With an ever-evolving and forward pushing force, everything leads to believe that Radze will soon be spreading his uniquely dynamic acid-tekno sound across the continent.
