

# SCALE 9

## DJ SET

Scale 9 stands out as a dynamic force in the French electronic music scene. His unwavering passion for music led him to dive into the electronic world in 2015. Since then, he has showcased remarkable versatility, exploring styles like 90s rave, oldschool Trance and Hardgroove.

Known for blending a wide sonic spectrum — from groovy to harder sounds, dark moods to bright atmospheres, always tinged with raging acid lines — his sets focus on the energetic progression of music and the dancefloor perception, rather than sticking to a single vibe or genre.

As the founder of the independent label DUR, Scale 9 continually refines his craft, releasing high-quality tracks while uncovering and promoting new talent. Over the years, his influence has extended far beyond French borders, steadily making his mark on the international stage with two tours in Colombia and numerous performances across various European countries.
