

SUBWAY SHAMANS

LIVE / DJ SET

Rising out from the shifting sands of a desert planet, Subway Shamans bring the echoes of a dystopian rave future, dominated by doomfull beats and creaky 303s.

Behind this sci-fi alike movie plot is the story of two legends of the Belgian electronic scene, Mr Gasmask & Epidemie, joining forces to create the most epic match between acidcore & psy-trance. A massive encounter based on a pure addiction to acid sounds, and driven by the thirst of opening doors of a new hybrid world : their own.

Far from the simple floor-impact bangers, we're talking about a full-fledged experience, in which every element has been masterfully designed and has a key role to play. A powerful blend of rolling basslines, distorted kicks and technological sounds led by eerie synths, the threat of an acid war hanging in the air.

Regularly bringing new pieces to their universe with killer tracks and brilliantly giving life to it through amazing live performances, Subway Shamans show us the way by breaking the rave codes and taking it to other hybrid dimensions.
