

TEOKAD

DJ SET

Co-founder of the Mikrokosm collective and head of Error 303, Teokad has been building a rowdy & uninhibited style of acid techno for a few years, with a total freedom of influences.

Strong scents of acid, early-hardstyle and UK infused rhythms, it's a whole arsenal that he learned to deploy behind the decks, but also in front of his machines. With only a few loopholes left on the dancefloor, the breaks, perfectly executed, are then the only respite moments.

Teokad's musical universe takes alchemy in a hub of influences where the borders between techno and trance are governed by a more global vision of rave, and where generosity, frenzy and TB-303 seems to be the only words of order.
